Deliver satisfied results for a wide range of clients, currently working on my own project using **Cordova (PhoneGap)** and **Ionic Frameworks + AngularJS**

OneTech Inc. / 2013 - 2014, China

OneTech is a start-up company aiming to help online shoppers find desirable products. My job there was to build a single-page application from scratch, which includes:

Plan (Analysis of Market's Demand, Decision of Frameworks, Data Research and etc.)

Design (**PhotoShop, Illustrator, InDesign, Axure**)

Development (**HTML/CSS, JS/JQuery, PHP, Version Control, MySQL**)

Beijing Huajianlian Cost Engineering Inc.

Responsible for the development of websites and web applications, including programming, testing and delivery of web sites and applications, as well as ongoing project enhancements and website maintenance. Skill used:

Data Mining (**Excel VBA**)

PSD to HTML/CSS

Fix **Cross Browser compatibility**

Animation Realization(**JQuery/JQuery UI**)

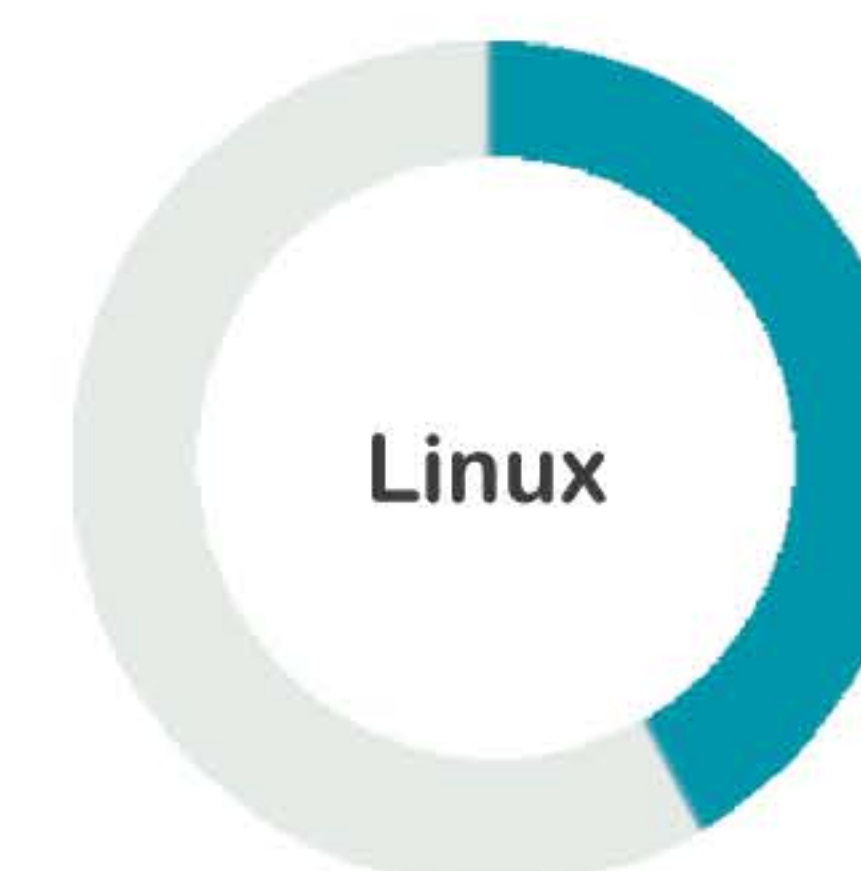

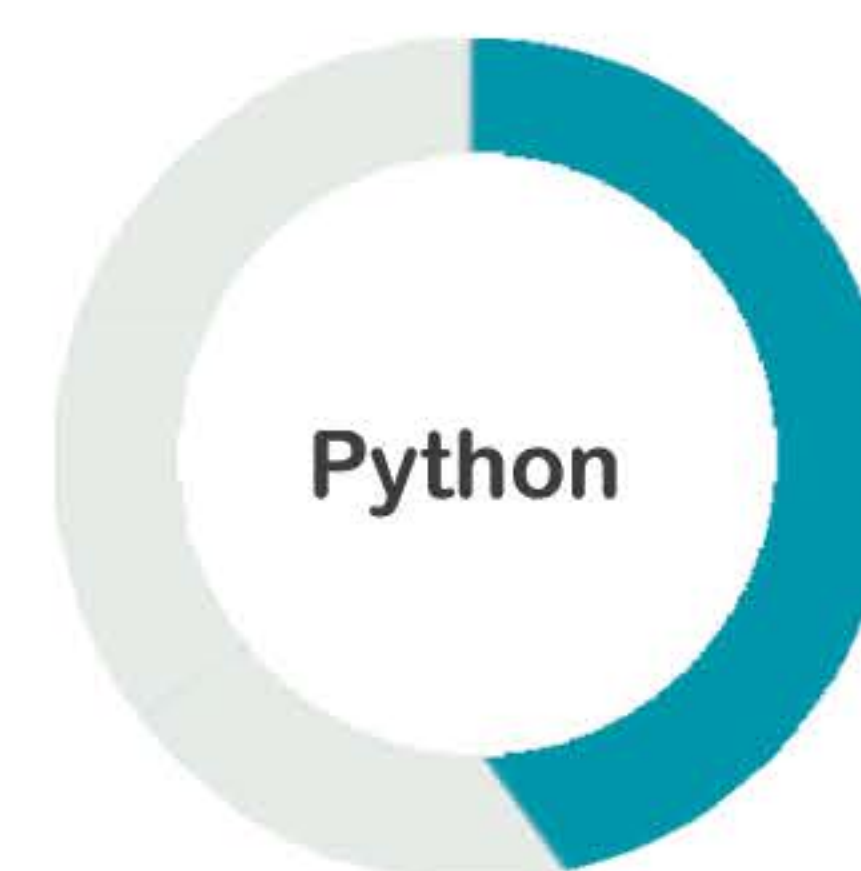

EDUCATION

University of Saskatchewan / 2008 - 2012 Finance

Graduated with a background of finance from the University of Saskatchewan, where I spent most of time on trying to figure out how money works. After understanding the conspiracy of finance, I decided to not waste my life on a zero-sum game. Therefore, I returned into IT industry that I have been interested in since I was young.
